

Once rocky the
rock was clinging
onto the mountain.

don't
do this

He got kicked
by a jagged

ouch

He was not expecting
what happened next?

whhh

I hate
water

... blown by
the wind into
a river

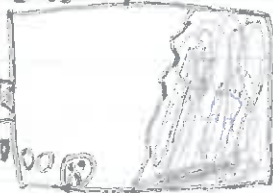

He broke off
the mountain.

He landed at
the foot of
the mountain.

But after all
that trouble
he landed on
the beach.

I wonder
what
will
happen
next?

It was
worth
all that
trouble

The wind pushed
him into a field
of cows.

He has
now Peter
the Pebble

A great comic strip, Henry.
Where would you put
the labels: eroded,
transported and deposited?
